

OPEN LECTURE

PROYECTA MEMORIA FOUNDATION

speaker

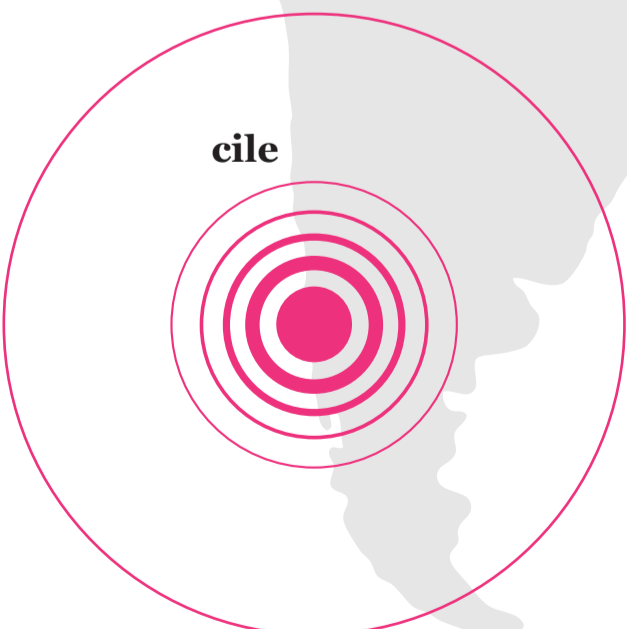

Patricio Mora

Milano

Proyecta Memoria is a private foundation, nonprofit, stationed in the city of Concepcion, Bio Bio Region, Chile (one of the most seismic city of the around the world and has suffered throughout its history 8 large earthquakes) and it emerged after the sixth largest magnitude earthquake in the history of mankind, February 27, 2010.

The foundation aims to preserve and protect the architectural heritage destroyed by natural disasters and manthrough techniques, principles and policies for reuse and recycling of symbolic in public open space. Under the order describe above, the Foundation aims to be a way to spread a vision that is specified through an interdisciplinary network of international support, both theoretical and practical, which adopts a new approach to heritage conservation, to strengthen economic identities destroyed through binding participation among communities, public and private sectors.
