Competition Rules

Language

English is the official competition language

Eligibility

The competition is open to all students in architecture enrolled in an education institution affiliated or not to AEEA. The entry projects can be designed individually or in groups under the tutorship of an architectural school professor.

Registration

Filling in the provided competition form will register each entry. The competition form once filled will be emailed to the competition secretary no later than the Deadline announced in the competition schedule.

Jury

The evaluation will consist in two phases:

A Jury held in each architectural school participant to this competition aiming to select 5-15 entries

In this phase the Jury constituency and process will be conducted by each participant architectural school and will aim the selection of 5-15 best projects representing the school at the final jury. Henceforth each school will establish the jury members and selection criteria.

A final Jury

The final Jury will take place in the University of Architecture and Urbanism "Ion Mincu" Bucharest, Romania. Prizes and Mentions will be established for the best projects entries. The jury's members will set the selection criteria and evaluation process.
